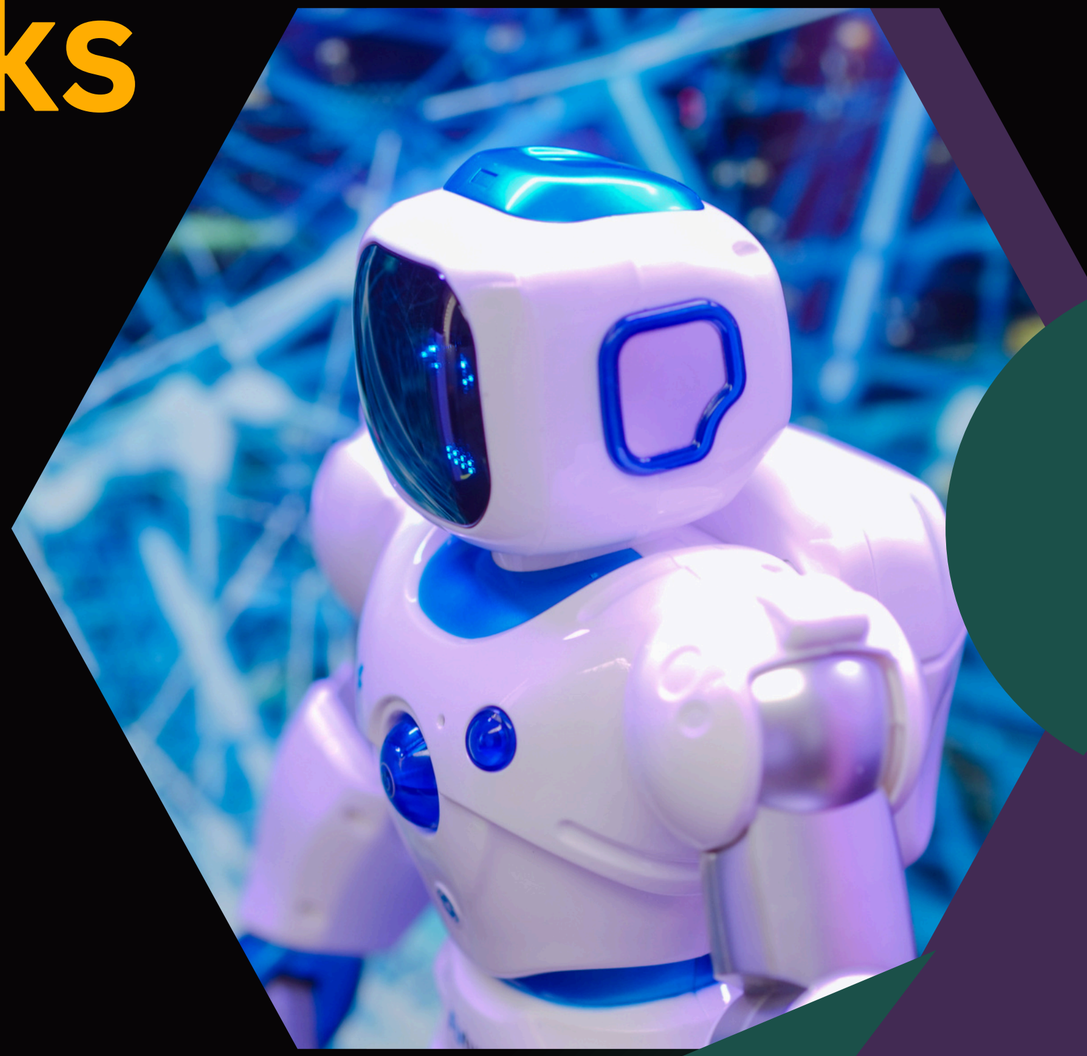
KARIGARAI – AI-POWERED MARKETPLACE ASSISTANT FOR LOCAL ARTISANS



TEAM DETAILS:

Rahul Chaudhary (Team Leader)

Sourav Thakur

Shivam Kumar

Vrinda

02

PROBLEM STATEMENT

Indian artisans possess generations of traditional craftsmanship but remain **invisible** in the digital marketplace.

- Artisans **lack digital marketing skills**, resulting in poorly presented products that fail to attract buyers or command fair prices.
- Limited **financial resources** prevent them from accessing professional photography, copywriting, or marketing tools that could showcase their work effectively.
- Language and **literacy barriers** make it difficult to create compelling product stories that connect with global, digitally-native audiences.
- The gap between traditional craft techniques and modern consumer trends leaves artisans producing what they know rather than what sells.
- **Middlemen** capture **60-70%** of the final price simply by handling the digital presence that artisans cannot create themselves.
- Without the ability to tell their story, the cultural heritage behind each craft risks being lost to future generations.

The **result**: Valuable traditional art forms struggle for survival while the digital economy passes them by.

03

PROPOSED SOLUTION AND ITS KEY FEATURES

KarigarAI is an AI-powered platform that gives every artisan a complete digital marketing team in their pocket
.

- Built **specifically** for artisans with **limited** digital literacy and resources.
- **Transforms** how traditional crafts are presented, promoted, and **sold online** through a simple voice-first interface.
- Integrates **storytelling**, content creation, product photography, and multi-platform publishing into one **seamless experience**.
- Delivers **professional-grade** marketing results without requiring any marketing skills from the artisan.
- Flagship **AI Product Photoshoot** feature converts **simple** phone photos into **studio-quality** product images instantly.

Key Features

01 Voice-First Interface – Artisans speak in their native language; AI handles the rest

02 AI Storyteller – Generates rich cultural narratives from a single product photo

03 Trend Intelligence – Suggests trending styles, keywords, and pricing in real-time

04 Analytics Dashboard – Tracks views, sales, and customer insights simply

TECHNOLOGY STACK

Frontend

UI/UX — what the user sees and interacts with

- Next.js
- Tailwind CSS
- Framer Motion

Backend

Handles logic and connects AI + database with frontendNode.js

- Express.js
- RESTful API
- CORS
- dotenv

DataBase

Stores structured/unstructured data.

- MongoDB

AI & ML Modules

AI-powered features that make your platform intelligent

- Gemini Vision
- Gemini Pro
- Gemini 1.5 Flash
- Google Speech-to-Text

.

CHALLENGES FACED

01

Accurate Craft Recognition

Difficulty identifying specific handmade crafts from images

02

Original ideas

Integrating Multiple AI Services – Combining vision AI, text generation, and speech recognition

03

Handling Image Variability

Different lighting, backgrounds, and photo quality from artisans

04

Designing for Low Digital Literacy

Creating a simple UI for non-technical artisans

05

Ensuring AI Output Quality

Generating reliable product descriptions and marketing content

06

Language & Localization Support

Supporting regional languages for broader accessibility

FUTURE SCOPE

Future Opportunities

1. AI-Powered Personalized Marketing – Auto-generated Targeted Ads for Different Customer Segments
2. AI Skill Development Hub – Tutorials for Marketing, Photography & Product Presentation
3. Global E-commerce Integration – Connect artisans with international marketplaces
4. Blockchain Craft Authentication – Verify originality and protect traditional artwork
5. AR Product Visualization – Customers preview crafts in their homes before buying

FUTURE SCOPE

Professional network building

Relationships with other creatives and industry professionals open new opportunities

Skill development planning

We identify areas for growth that align with market demands and creative interests

Industry trend monitoring

Staying current with creative trends helps you remain relevant and competitive

THANK YOU
